I like Big bend better, it was Alexa that gave us the link, not Douglas, and the whole enchilada is on the region 8 website. This example throws the whole thing at the wall in the public notice too which is what we were trying to tell them not to do. I will go back and find the email with the link and send that to you.

It does in the public notice, although like many I've seen it also names more than 1 criterion for no future use. Do you think I should send Big Bend also? I went back to the ones Douglas sent and Big Bend was not among those I saw. If you think it would be a good idea, I can forward it to Rob. Let me know. David

This one does not make a determination of which criteria they are using.

Subject: Example of AE request from Region 8

Hi Rob,

Attached is an example of an aquifer exemption request submitted to Region 8 (EPA's Denver Office) from Colorado. Obviously, there is not one single format for all requests, but hopefully this is a useful example.

Let me know if you have any questions.

Thanks,

David
